Flood CE Requirement

Notice Date: August 2, 2018

Insurance professionals in Oklahoma will soon be required to expand their knowledge on flood insurance. Beginning **January 1, 2019**, the Oklahoma Insurance Department (OID) will require at least 1 hour of continuing education on flood coverage. All resident agents, CSRs and adjusters with a **Property** line of authority will be required to complete 1 hour of continuing education under the *Flood* course category per renewal cycle. This new requirement will be included in the 24 hours (CSRs 13 hours) as general credits.

SBS is currently working to add a course group titled *Flood* to the course application, which should be available by mid-September. The new course group will be universal and will apply to all license types. All courses currently approved under the *Flood NFIP* course group will automatically be converted to *Flood*. You may currently submit new course applications using the existing *Flood NFIP* course group immediately. Our goal is to build our course library with numerous flood courses in order for our licensee's to be able to complete this requirement for license renewal.

Should you have any questions regarding this notice, please contact the Education Division at education@oid.ok.gov.
